

The CT HFMA web site, www.cthfma.org, posts Connecticut health care financial job openings under the Chapter Resources tab. This feature provides chapter membership an easy to access source of openings within the Connecticut health care industry.

We encourage members seeking job opportunities to routinely check the web site for job postings. We currently have a few openings listed, but we expect this number to grow as providers, health care consulting firms, and membership become aware of this opportunity.

Initially, job postings will be screened keeping the following criteria in mind.

- Postings will be for health care providers and companies in Connecticut and its immediate surrounding states.
- All job postings will be for a three month period. Otherwise, it is the responsibility of the company requesting the posting to notify the chapter once a position is filled or should no longer be posted.
- The chapter will post these career openings on their web site as a convenience to its membership and the health care community. All contact for consideration will be strictly between the HFMA member and the provider/company who supplied the listing.
- The chapter will also provide information on our Linked In group page as new postings are listed.

As we move forward, we may expand the range of providers to include regional openings.

Please also keep this feature in mind if your employer or you are looking for prospective employees. If your employer has job openings, please follow the instructions on the web site regarding submission or use this link: http://www.cthfma.org/site/epage/18059_473.htm

I am very excited about this new chapter benefit and for how the CT HFMA chapter leadership continues to seek ways to bring value your membership and your career development.

If the job you wish to post meets the criteria above, please use the template below and email your job posting to info@cthfma.org with "CT HFMA JOB POSTING" in the email's subject.

CT HFMA Job Posting Template

Part I – Basic Information, please be brief.

Job Title:

Date to be Posted:

Organization:

Location:

Department:

Position Type: *(Please provide a sentence or two summarizing the job you wish to post)*

Part II – Detailed Job Specific Information, here you may elaborate.

Job Description:

Qualifications:

Part III – Contact Information

Contact Name and Title:

Contact Email:
